Hi [REDACTED]

Thanks for your email.

We would of course be happy to share information with you, although any advice about these issues is likely to emanate from the AFP or other departments in the first instance.

Look forward to staying in touch,

[REDACTED]

**Subject:** Unblocking of sites hosting Christchurch video

Hi [REDACTED]

[REDACTED] from [REDACTED] kindly passed on your contact details.

Last year, I joined [REDACTED] in a new Regulatory Affairs role. [REDACTED] [REDACTED]  
[REDACTED] We are engaging with the current issues being looked at by the Taskforce set up after Christchurch, primarily via [REDACTED] (I am a Board member as well as active on a number of relevant committees.)

In addition, in Australia, [REDACTED] did decide to block the attached list on the grounds that they provided access to the Christchurch attack video. In this context, I would be grateful if you could also keep us informed of any recommendations from the Department, the AFP or your office in relation to continuing to block this material.

Kind regards,

[REDACTED]
