

How our class stays safe online for 5 to 8 year olds

Aim: To highlight and encourage safe and respectful online behaviours for all students.

Teacher instructions

Display the online rules poster in your classroom as a safety reminder for students.

Use this to start a conversation about online behaviour and ask your students these questions:

Take home activity

Encourage your students to use the skills they have learned in class and create a tech agreement with their family for their own home.

They can explore how to stay safe online and develop their own set of rules using [eSafety's family tech agreement template](#) for 5 to 8 year olds.

➡ This resource helps support Element 3 of the Best Practice Framework for Online Safety Education, (Effective whole-school approaches; 3.6 Build supportive school environments with strong policies, well-trained teachers, and partnerships with parents/caregivers and community outreach services or student online safety referral, advice and support).
