Hi Julie - No problem! Thank you for this - I'll have our team do a bit more digging too. Yes - if the process is still open we'd be interested in connecting.

Thank you so much!

Hi [REDACTED]:

So sorry for the delay in replying. [REDACTED]

[REDACTED] In any case, here is the press release announcing the Commission in April: <https://www.futureoftechcommission.org/press-release-launch> and a contact in Lisa Cohen, who I didn't deal with.

[REDACTED]

Julie

Subject: Future of Tech Commission

Hi Julie -

Hope you had a good weekend! I'm glad the global community of orgs mobilized last week and we got statements out to continue to support Apple's increased investment in child safety and move to proactively detect CSAM for iCloud. [REDACTED] and I spoke generally about the need for more advocacy in this space and what role WeProtect could

play vs the possible need for an independent third party which could possibly mobilize more quickly. Worth continuing to think on this and discuss as a broader group.

I wanted to follow up on an unrelated topic. Last we spoke you mentioned a Future of Tech commission that was being set up in the US. Would you be open to connecting us in to the folks working on this. I don't believe we have a direct connection and we'd love to learn more and also share our thoughts on what needs to be done in this space in the US. Let me know your thoughts.

Thanks,

█
