

# Student eSafety commitment

Read the commitment example below and talk about it with your class, friends and family. Then create your own commitment using your own words.

## My eSafety commitment

I know that everything I post or react to online creates a digital footprint.

### **I promise to:**

- protect my own, and other people's privacy online
- ask for consent before posting and respect the answer
- respect the ideas and opinions of others – even if I do not understand or disagree
- report negative behaviour to the platforms.

# My eSafety commitment

**I promise to:**
