

Be an eSafe kid: Be safe, be supportive

These resources are for participants of eSafety's Be an eSafe kid: Be safe, be supportive Virtual Classroom webinar. The resources include:

- [Lesson plan](#)
- [Student worksheet](#)

You can use these resources separately or as part of a broader [online safety program](#). Please tailor the lesson to your students' level of understanding of online experiences.

Preparing for the webinar

If you would like students to answer the Virtual Classroom questions on the student worksheet, you can print copies or allow access to the editable PDF on a device. If you are unable to print or if there are no devices available, you can provide students with a blank piece of paper.

Joining the webinar

Access the Virtual Classroom through the link in your registration email – we ask that individual students do not log on. The webinar runs for about 45 minutes.

Student interaction during the webinar will include:

- listening to the presenter
- recording answers to the questions on the worksheet (optional)
- responding to the teacher-facilitated discussions (use the webinar chat box to record and share the students' answers)
- taking their worksheets home and sharing their learning with their parents or carers.

Help and support services

[eSafety Commissioner](#)

eSafety can assist with three types of online abuse: cyberbullying, image-based abuse, and illegal and restricted content.

If you are under 18 you can [report a complaint about cyberbullying](#)

[Kids Helpline 1800 55 1800](#)

Kids Helpline is a free, 24/7, private and confidential phone and online counselling service for young people aged 5 to 25 in Australia.
