What's been happening

Tell us, in as much detail as possible about the cyberbullying. What happened? Who did it? What did they say or post? Did anyone try to protect you? Have you reported it to anyone?

The Facebook group called Action for Alice 2020 is consistently targeting Aboriginal children in our community. There is no censorship or moderation of content. It is damaging to our young people, it racially profiles without facts and is consistently derogatory to Aboriginal children within our town. Members of this group have encouraged others to get shot guns and shoot children. Some members have wished harm on children. This forum has a massive audience of up to 12000 people. s47F am shocked that this forum is able to exist. I fear that an incident similar to that of Cassius will happen in our town because of the group consensus and encouragement of its members to take matters into their own hands. s47F teenagers read these posts in our community. I can't imagine how it would make them feel. s47F I am sickened by the racist hate that this forum breeds. Something has to give and I believe it starts with deactivating this forum and other forums like it. I can't believe that in this day and age in Australia people are able to speak like this about our most vulnerable. It flies in the face of the uuru statement and the government's commitment to action. Its spreading incorrect information about incarceration of aboriginal youth and encouraging harsher penalties which we know does not work. Any attempt of Education or calling out members for being racist ends in people being attacked as do gooders. Please help our town and our people.

Call To Discuss Complaint

Yes

How has this made you feel

Have you spoken to friends or family about the cyberbullying?

Spoken to Others?

No

Do you have someone you can talk to about how this is making you feel?

No

What kind of resolution would you like to see

What would you like the Commissioner to do?
