

# SAFER TOGETHER!

An online  
safety guide  
for families  
with kids

**Safer Together!** is a guide created alongside First Nations kids, young people, and their families and carers to help you be safe online.

First Nations people are some of the deadliest innovators and storytellers in the world, and the internet has created a new space for us to share our stories.

Sharing helps make our identity, culture and connections with each other stronger, but not when it hurts us or our mob.

**Safer Together!** has our top 10 topics for online safety. Use the information to yarn about being safe online.

Let's work together to help keep mob in control of online safety so we can grow as digital leaders!

Read **Safer Together!** and get started today!
