Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (**the Act**).

Please see enclosed a removal notice given to you under section 109 of the Act (**the Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Background

On 11 and 12 September 2025, the eSafety Commissioner became aware of seven instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (**the Material**). The Material is further described in **Attachment A** to the Notice.

The first instance of material depicts content that has been classified as RC by the Classification Board on 11 September 2025.

The remaining six instances of material contain content that is substantially the same as material that has previously been classified as RC by the Classification Board.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and

- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

Failure to comply with a removal notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) each day for each contravention by a body corporate following the end of the period specified for compliance with the Notice.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a 'social media service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

On 11 September 2025, the eSafety Commissioner became aware of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and has been Refused Classification (RC) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (the **Material**). The Material is further described in Attachment A to the Notice.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

External review by the Administrative Review Tribunal

You have a right to seek review of this decision by the Administrative Review Tribunal (**ART**). You can also request that the ART review a decision that has been made under the Internal Review Scheme.

It is recommended that you seek an internal review prior to seeking a review by the ART, however, there is no requirement to do so. You can choose to apply directly to the ART.

The ART is an independent body that can, among other things affirm, vary, or set aside the decision. If the ART sets aside the decision, it may make a substitute decision or remit the matter to the decision-maker to reconsider.

You must make any application for review to the ART in writing. The ART has a form available on its website which you can use.

Applications for review should be made **within 28 days** of being told about the decision.

You must enclose the application fee with your application. If you want to apply for the application fee to be reduced, you can obtain the application form for this from the ART.

The ART website (www.art.gov.au) has more information. If you have any questions about the ART's procedures and requirements, please contact the ART. Information about how to contact the ART is available at <https://www.art.gov.au/contact-us>.

You may request a statement of reasons for this decision under section 268 of the *Administrative Review Tribunal Act 2024* (Cth). Your request needs to be made in writing **within 28 days** of being told of this decision. To request a statement of reasons, please email internalreview@esafety.gov.au.

Judicial Review

You may also be able to seek judicial review of this decision.

Should you wish to apply for judicial review of this decision, you may wish to obtain legal advice, as there may be costs involved.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Background

On 12, 15 and 16 September 2025, the eSafety Commissioner became aware of forty two instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively, the **Material**). The Material is further described in **Attachment A** to the Notice.

The first forty instances of material contain content that is substantially the same as material that has previously been classified as RC by the Classification Board on 11 September 2025.

The forty first and forty second instances of material depict content that has been classified as RC by the Classification Board on 11 September 2025.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

**Removal notice requiring you to remove class 1 material from your service
(Under section 109 of the *Online Safety Act 2021* (Cth))**

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (**the Act**).

Please see enclosed a removal notice given to you under section 109 of the Act (**the Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a 'social media service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

On 16 and 17 September 2025, the eSafety Commissioner became aware of twenty two instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively, the **Material**). The Material is further described in **Attachment A** to the Notice.

The first four instances of material depict content that has been classified as RC by the Classification Board on 11 September 2025.

The fifth to twenty second (inclusive) instances of material contain content that is substantially the same as material that has previously been classified as RC by the Classification Board on 11 September 2025.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options

available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a 'social media service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

On 11, 17, 18 and 19 September 2025, the eSafety Commissioner became aware of twenty three instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively the **Material**). The Material is further described in **Attachment A** to the Notice.

The first instance of material depicts content that has been classified as RC by the Classification Board on 16 September 2025.

The second to twenty third (inclusive) instances of material contain content that is substantially the same as material that has previously been classified as RC by the Classification Board on 16 September 2025.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Background

On 17 and 18 September 2025, the eSafety Commissioner became aware of thirty instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively the **Material**). The Material is further described in **Attachment A** to the Notice.

The thirty instances of material contain content that is substantially the same as material that has previously been classified as RC by the Classification Board on 16 September 2025.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

- d) the material is not provided on an exempt service under section 109(1)(d) of the Act.

You are required to comply **within 24 hours** of being given this notice, or within such longer period as I allow if contacted by you with a request for an extension of time.

Section 111 of the Act provides that a person must comply with a requirement under a removal notice given under section 109 of the Act to the extent the person is capable of doing so.

Failure to comply with a removal notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) each day for each contravention by a body corporate following the end of the period specified for compliance with the Notice.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a 'social media service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

On 16, 19 and 22 of September 2025, the eSafety Commissioner became aware of 11 instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively, the **Material**). The Material is further described in **Attachment A** to the Notice.

The first five instances of material depict content that has been classified as RC by the Classification Board on 18 September 2025.

The seventh to eleventh (inclusive) instances of material contains content that is substantially the same as material that has previously been classified as RC by the Classification Board.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options

available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

The Material is further described in **Attachment A** to the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

For the purposes of this Notice, the eSafety Commissioner will accept 'geo-blocking' of the Material in Australia as substantive compliance with the removal requirement of this Notice. Geo-blocking refers to the practice of restricting access to, or delivery of, online content based on the geographical location of an end-user's IP address.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

There are no fees associated with an application for internal review.

To request an internal review, you will need to download and complete the **Request for internal review form** available on eSafety's website: www.esafety.gov.au/about-us/corporate-documents/internal-review.

External review by the Administrative Review Tribunal

You have a right to seek review of this decision by the Administrative Review Tribunal (**ART**). You can also request that the ART review a decision that has been made under the Internal Review Scheme.

It is recommended that you seek an internal review prior to seeking a review by the ART, however, there is no requirement to do so. You can choose to apply directly to the ART.

The ART is an independent body that can, among other things affirm, vary, or set aside the decision. If the ART sets aside the decision, it may make a substitute decision or remit the matter to the decision-maker to reconsider.

You must make any application for review to the ART in writing. The ART has a form available on its website which you can use.

Applications for review should be made **within 28 days** of being told about the decision.

You must enclose the application fee with your application. If you want to apply for the application fee to be reduced, you can obtain the application form for this from the ART.

The ART website (www.art.gov.au) has more information. If you have any questions about the ART's procedures and requirements, please contact the ART. Information about how to contact the ART is available at <https://www.art.gov.au/contact-us>.

Should you wish to apply for judicial review of this decision, you may wish to obtain legal advice, as there may be costs involved.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021* (Cth))

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021* (Cth) (the Act).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a relevant electronic service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

On 29 August 2025 and 17 September 2025, the eSafety Commissioner became aware of twenty seven instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (collectively, the **Material**). The Material is further described in **Attachment A** to the Notice.

On 6 November 2024, the Classification Board classified a video 25 seconds in length as Refused Classification (**RC**), pursuant to item 1(a) of the films table of the National Classification Code (the **Code**).

The first to twenty seventh (inclusive) instances of material contain content that is substantially similar to material that has previously been classified as RC by the Classification Board on 6 November 2024.

The decision to give you the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a relevant electronic service within the meaning of section 13A of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

Removal notice requiring you to remove class 1 material from your service

(Under section 109 of the *Online Safety Act 2021 (Cth)*)

I am a delegate of the eSafety Commissioner for the purposes of section 109 of the *Online Safety Act 2021 (Cth)* (the **Act**).

Please see enclosed a removal notice given to you under section 109 of the Act (the **Notice**). The Notice requires you to take all reasonable steps to ensure the removal of class 1 material, specified in **Attachment A**, from your service **within 24 hours** after being given the Notice.

Please note that all references to a 'social media service' in this Notice are not intended to exhaustively or exclusively define your service under the Act.

Background

Between 21 August 2025 & 14 October 2025, the eSafety Commissioner became aware of eight instances of class 1 material which is provided on your service, specifically material depicting, expressing or otherwise dealing with matters of sex, drug misuse or addiction, crime, cruelty, violence or revolting or abhorrent phenomena in such a way that they offend against the standards of morality, decency and propriety generally accepted by reasonable adults and is likely to be Refused Classification (**RC**) by the Classification Board under the *Classification (Publications, Films and Computer Games) Act 1995 (Cth)* (collectively, the **Material**). The Material is further described in **Attachment A** to the Notice.

The first to the eighth (inclusive) instances of material depict content that has been classified as RC by the Classification Board on 3 & 18 September 2025.

Basis for giving the Notice

I have formed the view that:

- the Material is, or has been, provided by you, a social media service within the meaning of section 13 of the Act;
- the Material is, or was, class 1 material within the meaning of section 106 of the Act;
- the Material can be accessed by end-users in Australia; and
- the Material is not provided on an exempt service under section 109(1)(d) of the Act.

On this basis, I have decided to give you the Notice.

Required action

Please email requests@esafety.gov.au once you have removed the Material in compliance with the Notice.

If you have any questions about the Notice, or if you require a longer period of time to comply, contact our office by email to requests@esafety.gov.au as soon as you receive this Notice.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.

Failure to comply

Under section 111 of the Act, you must comply with a requirement under a removal notice given under section 109 of the Act to the extent that you are capable of doing so.

Failure to comply with the Notice may result in enforcement action, including the commencement of civil penalty proceedings for a civil penalty order of up to a maximum penalty of \$825,000 (AUD) for a single contravention by a body corporate.

Under section 93 of the *Regulatory Powers (Standard Provisions) Act 2014* (Cth), failure to comply with the Notice means that you commit a separate contravention of section 111 of the Act in respect of each day following the period specified for compliance with the Notice. This may attract additional penalties of up to \$825,000 (AUD) each day for a single contravention by a body corporate following the end of the period specified for compliance with the Notice.

Review rights

You have a right to seek an internal or external review of the decision to give you a removal notice.

An internal review is a review conducted by the eSafety Commissioner under eSafety's Internal Review Scheme. There is no fee associated with a request for an internal review.

An external review is a review conducted by the Administrative Review Tribunal (**ART**). The enclosed information sheet sets out your rights regarding the different review options available to you, as well as other options if you do not agree that the Notice should have been given to you.

Please note that you are required to comply with the Notice even if you have made an application for internal or external review, unless you receive notice that the eSafety Commissioner or the ART has decided otherwise.
