

Get your campus involved

9 February 2027

Safer Internet Day

Online safety affects how people learn, work and connect across your campus. Universities and TAFEs can help students and staff build practical skills, make safer choices and know where to turn when something goes wrong.

On Tuesday **9 February 2027** – or as part of your orientation activities – put online safety on the agenda with these ready-to-use resources.

In your resource pack:

Presentation

Virtual background

Poster

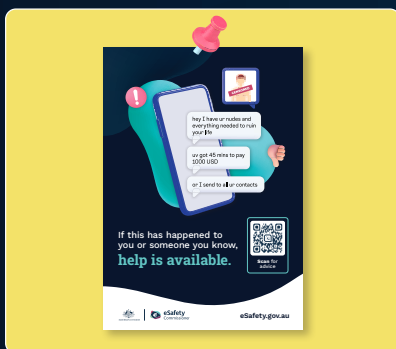

Editable social media tile

Pick one way to take part – or try a few

Run the presentation

Use the presentation to lead a 10-minute conversation about online safety with staff by adding it to a team meeting. There's also a virtual background you can use.

Display the poster

Put the poster in student services, classrooms and libraries.

Pass it on

Ask staff and students: *What's one online safety tip you'd like to share?*

Submit a tip through our Pass it on activity. What works for your tertiary community could help someone else.

Pass it on

Share your tip using a social media tile from your resource pack. To personalise the editable PDF, open it in Adobe Acrobat (paid version required), add your tip in 15 words or less and export it as an image. Alternatively, use the ready-to-share tile and add your tip to the suggested caption below.

Copy, paste +
personalise

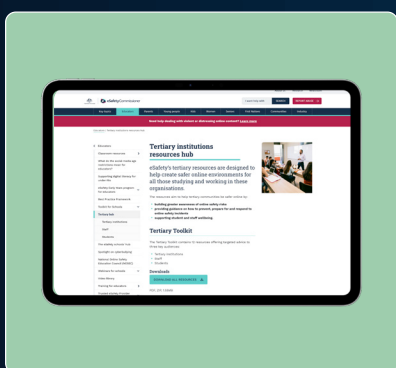

Today we're joining @eSafetyOffice for
#SaferInternetDay.

We asked our staff: *What's one online safety tip
you'd like to share?*

Here's what they said: *[insert online safety tip].*

*What's one online safety tip that's helped you?
Tell us in the comments.*

*Good advice is worth sharing. **Pass it on!***

Explore more tertiary resources

Find digital signage, social media tiles and other online safety resources for universities and TAFEs to use throughout the year.
